	ail count?? Are you mad because your mail volume suddenly disappeared??

iail count?? Are you mad because your mail volume suddenly disappeared?? I't seen anything yet until you get counted in a May mail count under FSS.... You think cre.. We will need gallons of Vaseline for that one.

Inion is the answer? Go ahead... And the next time you don't like a contract that is ou will have no say.. Some say lets go to the media, or even Congress... Sounds like are you going to tell them? The USPS manipulates the mail flow during a mail count... ' of them are going to ask is what proof do you have.... Does anyone out there have hat the USPS is manipulating mail flow? We can all say we know they do it. But f, anyone we go to will laugh us out of the building.

a change, we, meaning ordinary rural carriers will have to start something to make a l. Ordinary rural carriers, like myself and all of you have two very important rights in get to vote on contracts like we did when they offered us the extension... Yea, we ame thing, but there was a little improvement that came out of us voting that thing ite on the delegates from your state that you send to represent you at the National ngs are basically the only power ordinary rural carriers have. So, what can we do to

we send to the national convention.. Plain and simple...

how we keep electing the same old delegates who vote in the same old people over k you this.... Did you vote on your delegates last year? Did you even look at the

take the time to vote on "American Idol" than have taken time to look at one of those

en know what they stood for when you voted? Did you vote for them just because you see time and time again a blurb in my state paper that says vote for me.... but I should vote for them. Guess what, I don't vote for them. If I don't know how they s in this craft, then they don't get my vote.

of you that are tired of all the same old crap, the same old people, are you ready to do you ready to do something more than just gripe on a message board? Are you ready to first thing we need to do is get people to vote for their delegates in the first place. The get the word out about the delegates in your state. If we don't get carriers start voting o the BOHICA fests. Over and over again.

I the Delegate Awareness Project. It will require collaboration from many people. It very state. If people do not step up for this, a few of us cannot do it... It will not be d song will continue to play.

to hear that same old song over and over in your head every day, do nothing. Keep J... We will keep checking back to see how thats working for ya.... But for those of do something but don't know where to turn.... Join us, get involved and spread the
